

A Vital Part of Your Well-being

Water Care

Simpler, Cleaner, Better

The FreshWater® Salt System is an affordable and easy-to-use water care system that keeps spa water clean and clear up to a full year.*

- ◆ Natural-feeling water
- ◆ Fewer chemicals and no harsh odours
- ◆ Less time maintaining your spa

Available on Utopia™ and Paradise™ Series Spas.

**Many factors impact the life of the hot tub water, such as bather load and water chemistry. When these factors are accounted for and the spa is properly maintained, the FreshWater® Salt System will keep water clean and clear for a full year.*

The maintenance-free titanium cartridge is hidden away in the spa and can be replaced in seconds, without tools.
